### OIL TRUST BEGINS ITS FIGHT TO EXIST

Great Legal Battle on in the Supreme Court.

OPENING NOT SPECTACULAR

Government Forces Oppose Corporation Lawyers - Pleasing Exchange of Courtesies Precedes Session-Excitement Suppressed.

Across the last ditch of a campaign of years there began yesterday the last battle between the government and the Standard Oil.

There was little that was spectacular about the opening of the great legal battle which has controlled the stock market for months and influenced legislation for a session of Congress.

The corporation is held to be a combination in restraint of trade and commerce, in violation of the Sherman antitrust act.

Court Extends Time.

In view of the great importance of the case, the court enlarged the time for the hearing from four hours, the customary allotment, to twelve hours, which is to be equally divided between counsel for the Standard Oil Company and the govern-

An order to this effect was made upon motion of Attorney General Wickersham, who pointed to the great importance of the case, its complexity and the enormous record coming up from the trial in the lower court as reasons for granting additional time for argument.

John G. Milburn, in defense of the corporation, might have been going to tell the eight justices of the court his best after dinner story instead of compressing into four hours of effort the history of the greatest combination of capital which the law knows.

"May it please your honor," he began pleasantly, stepping to a table upon which were spread volume after volume of the records of the long case. Justice Moody Absent,

At one end of the long table of records

and law books sat John G. Johnson, of Philadelphia, poring over a brief. His fingers ruffled up his gray hair, and he seemed not to share in the general interest in the argument of his associates. ### GRILLS CIVIL SERVICE

Central Labor Union Protests at Illegality.

WILL APPEAL TO PRESIDENT

Organized Workingmen Adopt Resolution by Which Taft Will Be Urged to End Alleged Practice Whereby Unskilled Employes Are Directed to Do Skilled Labor,

The Central Labor Union will appeal President Taft to enforce the civil service laws of the country and adopt such measures as may be necessary to put an end to the alleged practice of those in charge of the employment of labor of using unskilled labor in the performance of duties for which skilled labor is ordinarily employed.

Following a lengthy discussion of the matter at the meeting last night, which was presided over by John B. Colpoys, a resolution was adopted directing the officers of the union to lay the matter before President Taft.

Called to Attention. Several weeks ago the subject was first brought to the attention of the central pointed to ascertain the extent to which the abuse had been carried. A report was submitted last night by the committee which invited attention to the fact that under the civil service laws and regulations the use of any employe upon work of a higher grade than that of the class in which he is employed is

Under this regulation unskilled laborers cannot be assigned to carpenter work or to any work of a skilled character.

In spite of this prohibition, the report stated, the practice has become general, net only in Washington, but wherever the government employs labor, of assigning men to all classes of work, irrespective of what their civil service rating or rate of compensation may be. For this

reason the resolution was adopted. Mr. Colpoys announced that at this ime it did not seem necessary to appoint the committee to solicit funds for the Philadelphia strikers, in. conformity with a resolution adopted last Monday night, as funds are being received in sufficient amounts by the strike managers to properly care for all of their men at

Solicitors at Work. Several independent solicitors have been at work in this city, but the central body

did not consider it necessary to further the cause at present. Labor Day celebration also received the consideration of the body, which provided for the appointment of a committee to take charge of arrangements for the proper observance of the day. The committee will probably be a large one, but only a pertion of it was announced last evening. Those appointed were James W. Considine, N. A. James, Luke Ludlow, Sam De Nedrey, and John B.
